Synopsis:

The average business has massive inefficiencies within its core processes. Recruiting errors, failure to close sales, wasted time in meetings, rework, bottlenecks and delays - just a few examples. Why put more business through an incapable system? We suggest optimising the process before embarking upon a growth phase. This session will show you a simple way to map any process and then identify the areas where it can be streamlined. No smoke and mirrors, just robust practical tools that we use successfully every day with our clients.

Terms: *Payable on presentation and in advance of the event. Any cancellation must be made in writing at least 48 hours prior to the event, or payment will be due in full.
